

AMBER BEERS

Caracole Ambree (Brasserie Caracole). Traditional amber of character, accentuated with a note of bitter orange and ginger. Brewed over a wood fire. On the nose, it offers aromas of hops and sea air. In the mouth you can feel the hops and a slight roasting. It is also marked by a few hints of orange blossom, mocha and liquorice. In the aftertaste there is a nice balanced and prolonged bitterness.

ABV 7.9%

Kwak (Bosteels). Kwak is a traditional strong Belgian amber ale, a perfect blend of malt and hops with a great complexity of flavour. It is recognizable by its deep amber, clear beer with a dense, creamy-coloured head. The white wood support offers a nice contrast with the beer. Aromas of dark caramel, dried orange, a hint of banana and baking spices with a touch of earthiness. It is a medium-bodied beer with a soft, mellow warmth.

Flavours include gentle allspice, baked caramel and banana with notes of orange marmalade. Spice and a warming character linger on the finish with a delicate bitterness.

ABV 8.4%
